Tribute to Our Nation’s Caregivers

November is National Family Caregivers Month. It is a month to recognize, thank and honor the many millions of Caregivers who day in and day out take on a role they may have never planned for. These contributions are immeasurable to society and to the VA.

In 2015 President Obama shared the following in his annual Presidential Proclamation:

“When our men and women in uniform come home with wounds of war – seen or unseen – it is our solemn responsibility to ensure they get the benefits and attentive care they have earned and deserve. Caregivers in every corner of our country uphold this sacred promise with incredible devotion to their loved ones, and my Administration is committed to supporting them.

During National Family Caregivers Month, let us honor their contributions and pledge to continue working toward a future where all caregivers know the same support and understanding they show for those they look after.”

The VA Caregiver Support Program continues to strive to improve, develop and expand the many supportive programs it offers. It focuses on providing the Caregiver with resources to help them maintain balance and obtain the support they need to continue in their critical role.

UPCOMING EVENTS

The VA Caregiver Support Program, in collaboration with the Transition and Care Management and Extended Care Programs, provides Caregiver Support Groups on an ongoing basis.

“Caring for the Caregiver”
Every 1st and 3rd Thursday at 12:30 pm Transition and Care Management Conference Room Building 4 Room 5-13 Lyons Campus

“Coping with Dementia & Chronic Illness Support Group for Caregivers”
Every 2nd Thursday at 1:00pm in the PERC Conference Room Building 4 Lyons Campus

We heard you! If you can’t join in person, call and learn how to join by phone from anywhere in the community that works for you.

Please contact:

Strategies to Build Love and Friendship

As a Caregiver it is important to carve out some time to remember why you love the person you are caring for. Sometimes during your caregiving journey, this can be lost as you become overwhelmed with the day to day demands that you face. To the right are tips taken from the Leaning into Love Caregiver Support Line Education Call that can help you to rekindle what brought you to love that person to begin with. Contact your Caregiver Support Coordinator to find out more about the monthly Caregiver Support Line Education Calls and upcoming topics.

Strategies to Build Love and Friendship

In order to get the benefits of a loving relationship, we must be willing to lean in and focus on the act of giving love.

- **Remember Your Love Story** – Each partner writes or remembers out loud the story of the relationship. What attracted you? What was your experience? What did you feel and how did each of you behave?

- **Fondness and Admiration** – Think about, notice, and relate, on a daily basis the positive aspects of your partner when together and apart. This can have a powerful impact on your bond and your ability to weather difficulties.

- **Build the Friendship** – Most relationships don’t end due to conflict. They end due to a loss of connection and friendship. On a daily basis, reestablish the friendship. Ask them something about themselves. Be curious.

Communication Strategies

- **All relationships have conflict. It’s how you manage the conflict that matters!**

- **Start by assuming something positive.** For example, “I know you work hard at work but the housework is getting overwhelming to me and I could really use your help with it.”

- **Pay attention to your tone.** Be polite “Honey can we talk for a minute…”

- **Describe what makes you upset, without judgment.** “I know you didn’t intend to, but you forgot to take out the garbage as you promised.”

- **Don’t use “you always” or “you never.”**

- **Be specific about the complaint.** Don’t pile up a bunch of complaints. Make the complaint a one-time specific event.

- **Don’t just identify the problem. Identify what you want or need.** “I was disappointed that you made plans with friends for the weekend. I would really like to have some time with you alone.”

- **Learn to Recognize Flooding.** If you or your partner are so emotionally stressed by the conversation that you can’t listen or have a reasonable response, both of you would be better off at that point to take a break until you calm down.
**Online Classes and Resources from Easter Seals:**
These online classes from Easter Seals are a great way to get some tools, tips, and techniques for working with your loved ones, but also caring for yourself. Most are 60 minutes in length.

As a proud member of the Elizabeth Dole Foundation’s National Coalition for Military Caregivers, Easter Seals has partnered with leading military service and caregiving organizations to launch a series of practical webinars offering helpful tips and tools to support military Caregivers. Topics address areas such as building resilience, military Caregivers in the workplace and receiving with grace.

**Recognizing and Responding to Chronic Sorrow:**

---

The Caregiver Support Program encourages all Caregivers to care for themselves. The program has developed self-care courses covering topics specific to Caregivers to provide tools, strategies, and techniques to help you balance caring for your veteran and caring for yourself. The following information is just an excerpt of the information developed for Caregivers.

**Caregiving is stressful!** Stress is a normal physical response to the many challenges you face on a daily basis. It’s not just the feeling of being overwhelmed by too many demands on your time; chronic stress can actually lead to health problems, if you don’t find healthy ways to cope with it.

There are tools, strategies, and techniques that can help you manage the stress in your life. They may not make specific problems or challenges go away, and they won’t cure a loved one who is disabled or ill, but they will help you build your resilience.

When we talk about managing stress, **resilience** is an important concept; it’s the ability to adapt to and cope with stressful situations and adversity. Think of resilience like a muscle; it takes practice to build it up over time but it helps you become stronger and increases your capacity to deal with future difficult experiences.

"Stress is not what happens to us. It’s our response TO what happens. And RESPONSE is something we can choose.”

- Maureen Killoran

"The care you give your loved one depends on the care you give yourself.”

- Caregiving daughter

VA NJ Caregiver Support Coordinators:

Jennifer Adams-Barsch, MSW, LCSW
East Orange and northern clinics 973-676-1000 x3085

Peterson Pierre-Paul, MSW, LSW
Lyons Campus and southern clinics 908-647-0180 x4003

VA Monthly Caregiver Support Line Education Calls:
Participate in calls focusing on strategies to enhance resilience and restore balance. The calls are facilitated by the VA Caregiver Support Line. Typically one topic is offered each month at different times.

VA Peer Support Mentoring Program:
Peer Support Mentoring Program is a program that matches Caregivers with peer mentors, who can provide personalized support, guidance and friendship, experience and knowledge, and wisdom and skills about thriving as a Caregiver.

VA Building Better Caregivers:
Building Better Caregivers™ (BBC) is a six-week online interactive workshop for Caregivers who are caring for someone with dementia, memory problems, post-traumatic stress disorder, a serious brain injury, or any other serious injury or illness. BBC helps Caregivers in two key ways: it offers training in how to provide better care, and it also helps Caregivers learn how to manage their own emotions, stress and physical health.

VA Caregiver Website:
Go to www.caregiver.va.gov and sign up for email updates on Caregiver topics. Look at the Diagnosis Care Sheets, download Everyday Tips and Checklists, read other Caregivers’ stories and more.

Veteran’s Health Library:
Go to www.veteranshealthlibrary.org for an easy-to-access source of consistent, Veteran-centered, up-to-date healthcare information.

Veteran Caregiver Educational DVD’s:
Caring for a Veteran with PTSD, TBI, or Chronic Pain are available by contacting the NJ VA Caregiver Support Program directly. Your role is caregiver is challenging let us help you find the resources you need!

Call us today to discuss and sign up for any of the above services and learn more.
